

STIERLIN RD. ONRAMP & MOFFETT CONGESTION RELIEF PROPOSALS

Moffett Neighborhood Group

1 Keep Stierlin Road onramp to Central Expressway *open*. Closing would further constrict access to Central Expwy and exacerbate congestion on Moffett, Jackson and Central Ave.

2 Currently, many vehicles are prevented from turning left from Moffett onto Central Expwy because the concrete divider and traffic backed up on Moffett prevents them from accessing the left turn lane. Removing the concrete divider will resolve this.

3 Traffic study and video illustrate a Right-Turn-Only lane would vastly improve turns onto Central Expwy. slowing traffic onto Castro. Existing right lane could be designated for W. Evelyn. Thus, vehicles would be queued for efficient flow and max throughput on all lanes.

4 Installed to slow right turn traffic onto Jackson.

5 Signage alerts drivers to queue to lanes, improving efficiency.
